ERICSSON IS HONORED.

A Statue of the Famous Inventor
Unveiled in New York.

PRESENTED BY SWEDISH SOCIETIES.

The Monument Stands in the Battery.
It is Saluted by the Monitor Mian-
tomah—A Man Who Befriended
This Country in Sorest Time of Need.
His Work Commemorated on the
Bronze Panels of the Structure—A
Monument to Audubon, the Ameri-
can Naturalist.

New York, April 26.—A tribute of
honor to the son of another country,
whose genius befriended us in time of
sorest need, constituted the first formal-
ity in the Columbian fete to-day.

While the Columbian fleet was slowly
waking into life in the harbor this
morning the air was rent with music
and preparations were being made to
unveil the statue of Ericsson. As early
as 7:30 o'clock the members of the New
York and Brooklyn Swedish singing so-
cieties assembled in Union Square and
marched down Broadway to the battery
to assist in the unveiling of the monu-
ment. The procession moved at 8
o'clock.

The double turreted monitor Mian-
tomah came up from the lower bay
early this morning, anchored off the
battery and fired twenty-one guns, when
the statue was unveiled by Miss Frie-
linda Anderson. The statue was then
delivered to the civic authorities by
Secretary Ashley W. Cole, and accepted
on behalf of the city by President Paul
Dana, of the park board. Col. William
C. Church made the oration.

This statue of Ericsson was modeled
by Julian Scott Hartley, and was cast in
bronze by the Gorman Manufacturing
Company at Providence. The figure of
Ericsson is eight feet, three inches
high. The polished Quincy granite
pedestal on which it stands is eight feet
nine inches high, making the total ele-
vation of the monument seventeen feet.
There are four low relief panels set in
the pedestal. The subjects represented are:

"The battle between the Merrimack
and the Monitor."

"Steam Fire Engine in Action."
"Steam sloop of war Princeton, the first
application of a screw propeller to war
ships," and "a group of various inven-
tions, such as solar and calorific en-
gines." The head of the statue was
modeled from a bust taken from life.
The figure stands in an easy position,
holding in the left hand a scroll to
which the inventor points with his
right hand, in which he holds a pair of
compasses. Ericsson is represented as
wearing an old fashioned double-
breasted black coat, a costume which
the inventor affected.

A Monument to Audubon.

New York, April 26.—The monument
which has been built to perpetuate the
memory of John James Audubon, the
American naturalist, was unveiled this
afternoon in Trinity cemetery, Boule-
vard and One Hundred and Fifty-third
street, in the presence of many mem-
bers of scientific societies from dif-
ferent parts of the country. The monu-
ment, which is of blue stone, was con-
structed from contributions received
from scientists from all over the United
States and cost \$10,000. Addresses by
leading scientists formed the principal
feature of the unveiling.

ODD FELLOWS ANNIVERSARY

At Fairmont—Parade in the Afternoon and
Banquet at Night.

FAIRMONT, W. VA., April 26.—The
sixteenth anniversary of the Indepen-
dent Order of Odd Fellows was celebrated
here to-day under the auspices of Pala-
tine Lodge No. 84 and Marion Lodge No.
11, of this place. Lodges from Man-
nington, Monongah, Farmington and
Fairview were here, beside a great many
visitors from other lodges.

The procession was formed at 2 p. m.,
with Col. Clarence L. Smith as chief
marshal, headed by the Palatine band
with the band from Farmington in the
center and the Lyons City band bring-
ing up the rear.

The principal address was made this
afternoon by Past Grand Master John
A. Beck. The exercises to-night were
an exemplification of the unwritten
work by Grand Representative Godfrey
Schull, of Wheeling. The banquet
served in the opera house, under the
charge of the ladies of the Methodist
church, was a grand success as there
were about 400 seated at the tables.
After the banquet a collection was taken
up for a destitute widow and the sum
of \$50 was collected.

seventy-fourth anniversary of the Inde-
pendent Order of Odd Fellows was cele-
brated here to-day by a county celebra-

Dayton, of Philippi, the brilliant lawyer
and Grand Master of the order in this
state, made the address, which was lis-
tened to by five hundred people. He
made a grand effort, and showed forth
the principles of the three links. Pres-
ton county has nearly six hundred mem-
bers.

Pardoned the Wrong Man.

Special Dispatch to the Intelligencer.

COLUMBUS, O., April 26.—President
Grover Cleveland, it has just been dis-
covered, recently pardoned the wrong
man from the Ohio penitentiary. Two
brothers, Jack and Will Skinner, came
up from Alabama for moonshining.
The pardon was intended for Jack, who
is almost blind, and has a family de-
pendent upon him for support. A cler-
ical error gave Will his liberty, and he
skipped for the south Monday. He is
a perfectly able bodied specimen of man-
hood.

The Rev. Wm. Stout, Warton, Ont.,
states: After being ineffectually treated
by seventeen different doctors for sero-
fula and blood disease, I was cured by
Dr. Buck's Blood Bitters. Write him for
proof.

MONSTER LOCOMOTIVES

Passed Through Wheeling Enroute to the
World's Fair.

On Tuesday night about 9 o'clock
three immense locomotives passed
through here, over the Baltimore &
Ohio, bound for Chicago where they
will form an exhibit at the World's
Fair. They are from the Baldwin lo-
comotive works, Philadelphia, probably
the most extensive locomotive works in
the world. Their product can be
found in nearly every country on the
globe. The engines were of a larger
type than has ever been seen here, and
to pass through the tunnels on the
Baltimore & Ohio's Pittsburgh division
their stacks were taken down. The
driver wheels were seven feet in diame-
ter, two on each side. An ordinary
locomotive looked like a pigmy along-
side the Baldwin monsters. They are
of the same type as used on the Trans-
Andes railroad in South America. The
exhibit attracted much attention along
the route.

MR. SCHELLHASE'S SUCCESSOR

As Assistant Postmaster is Mr. Howard
Atkinson.

Yesterday Postmaster Cowden ap-
pointed Mr. Howard Atkinson, son of
Hon. G. W. Atkinson, as chief clerk, or
assistant postmaster, vice John W.
Schellhase, who resigned to accept the
secretaryship of the city water board.
Mr. Atkinson began work yesterday, so
as to familiarize himself with the duties
of his new position before Mr. Schell-
hase leaves for his new position. The
water board officials whose bonds were
approved by the city council Tuesday
night will assume the duties of their
new positions on May 1, next Monday.

A Good Attraction.

The Topeka Times speaks as follows of
the Noss Company, which appears at
the Grand Friday and Saturday, April
28 and 29, with a matinee Saturday:
Seldom has the amusement loving
people of our city been so completely
captivated as they were last Wednesday
night at the opera house over the ap-
pearance of the Noss Company. The
attendance was decidedly the largest of
the season, and has seldom been
equalled by any entertainment of the
past. The performance in many of its
finer attainments was an astounding
revelation to the audience, whose ap-
preciation found vent in rounds of ap-
plause.

R. G. McGaughey, against whom a
committee of the attorneys of this county
have filed charges to disbar him, has
filed his answer, in which he claims the
court has no jurisdiction; that he has
not been convicted of a crime involving
"moral turpitude," nor of any crime
known to the statute laws of Ohio, and
that on the 18th day of March, A. D.
1893, his excellency the governor of
Ohio, the Hon. William McKinley, Jr.,
granted unto the said R. G. McGaughey
a full and unconditional pardon, there-
by restoring him to all his civil rights

started for Washington and other eastern
cities. Upon their return they will
reside in McMechen. The other was

Annie Bursee, which occurred in the

MOUNDSVILLE.

A Miscellaneous Melange of Minor Matters
from Marshall's Metropolis.

There will be no vote on the present
road law at the school election. A good,
solid petition was presented to the
county court praying it to order an
election, but two points prevented this
being done. The law provides that a
petition of this kind shall not be acted
upon at the same term at which it is
presented, and also provides that this
question shall be voted upon only at an
election at which members of the house
of delegates are voted for.

The Marshall county jail has long
been noted as a badly constructed,
badly arranged building, and it is a
matter of public gratification that the
county court has taken hold of the mat-
ter and employed plumbers to give it a
complete rehauing.

Bids for the building of the Farmers'
and Mechanics' Bank building will be
opened Saturday. The plans, now on
exhibition at the bank, indicate that
the new building will be a very hand-
some structure. It will be three stories,
with a corner tower.

Rumors are floating about that a well
known country Democrat will shortly
